Use Case for creating a campaign

Use Case name:

Creating a Charity Campaign on Charity-Wallet Website.

Identifier:

UC-7

Precondition:

- The NGO must have a valid login credential.
- The NGO must be registered and approved by the website administrator.

Main Flow:

1. The NGO logs into the charity website.
2. The NGO navigates to the campaign creation page.
3. The NGO enters the following information about the campaign:
   a. Campaign title
   b. Campaign vision
   c. Campaign description
   d. Campaign image
   e. Campaign goal amount
4. The NGO submits the campaign creation form.
5. The charity website administrator reviews the campaign and approves it if it meets the website's guidelines.
6. The campaign is now live and visible to all visitors to the website.

Alternate Flow:

2(a). If the NGO encounters technical issues while creating the campaign, they can seek assistance from the website's support team.

4(a). If the campaign creation form is incomplete or contains invalid information, the NGO will be prompted to correct the errors and resubmit the form.

5(a). If the charity website administrator rejects the campaign, the NGO will be notified of the reason for rejection and given the opportunity to make changes to the campaign and resubmit it.

Postcondition:

- A new campaign has been created on the charity website.
- The campaign is visible to all visitors to the website.
- The NGO can track the progress of the campaign and make changes as needed.
- Donors can view and contribute to the campaign.
